

	Tangible deliverable			Presentation		
4 Exceeds Expectations	Mobile is easy to read or see from far away. It is put together with <i>obvious</i> care and is well crafted and <i>very creative</i>	<i>Many points of relevant</i> information about the architect is incorporated, including anything relevant to the architect's style or design choices	A minimum of 5 buildings are shown OR 1.5 per group member; buildings chosen are excellent examples of architect's style	Presentation style is <i>extremely</i> professional and student speaks clearly and is easily understood by classmates	Presentation <i>superiorly</i> informs the class about the architect and their background and how their life influenced their design choices	Presentation shows multiple buildings and <i>many relevant</i> details of that building; the buildings chosen give the class a <i>thorough</i> understanding of architect's style
3 Meets Expectations	Mobile is easy to read or see from far away. It is put together with care and is well crafted	Information about the architect is incorporated, including anything relevant to the architect's style or design choices	A minimum of 3 buildings are shown OR one per group member; buildings chosen are excellent examples of architect's style	Presentation style is professional and student speaks clearly and is easily understood by classmates	Presentation adequately informs the class about the architect and their background and how their life influenced their design choices	Presentation shows multiple buildings and the details of that building; the buildings chosen give the class an understanding of architect's style
2 Approaching Expectations	Mobile is not easy to read or see from far away, or images are blurry. It is put together with some care and is not very well crafted	Some Information about the architect is incorporated, some relevant information is missing or student simply provides very little information about the architect	A minimum of 3 buildings are shown OR one per group member; buildings chosen are not relevant or are not well explained to the class	Presentation was difficult to understand OR student was not in dress code OR presentation was generally unprofessional	Presentation did not inform class adequately about the architect. Information was either not relevant or was simply too brief	Presentation includes buildings but they are either not well described or images are hard to see and comprehend. Class does not benefit from buildings chosen
1 Below Expectations	Mobile is incomplete	Information on architect is extremely lacking	Less than 3 buildings are shown	Presentation is highly unprofessional or student simply did not present	Presentation gave class little to no relevant information or student did not present	Presentation does not give class relevant information on architect's built work or information is incorrect
